THE BLUE STANDARD

Welcome to the world of BLUESTAR JETS.

The philosophy behind our company is simple, represent the interests of the client by customizing each travel experience to fit their needs. So by enabling our clients to choose the aircraft to meet their specific requirements for each individual trip, we can easily outperform any other private aviation program. It's the BLUE STANDARD, a completely new way of approaching private travel.

The BLUE STANDARD insists on uncompromising service where it matters – in quality and safety- yet offers the most flexibility in the private aviation industry. Members enjoy access to over 6,000 aircraft worldwide with as little as four hours notice. It's business and leisure travel, with personalized luxury in every detail.

What might seem like an over-promise is just our corporate policy.

SAFETY BEYOND COMPARE

BLUESTAR JETS provides unparalleled quality and one of the highest standards of safety in the industry.

Every Measure has been take to ensure operators surpass the safety expected of an air carrier. All aircraft operators meet Federal Aviation Regulation Part 135 standards, and BLUESTAR JETS enlists the services of Wyvern Consulting Ltd., the most respected aviation safety auditor in the industry, to maintain records on aircraft and crewmembers involved in transporting our clients. Aircraft are checked and checked again so safety never has to be a concern. It's all a part of THE BLUE STANDARD.

Client privacy and safety is our utmost concern.

SKYCARD MEMBERSHIP

Why settle for a fraction, when you can access a whole fleet? BLUESTAR JETS SKYCARD Membership means having over 6,000 aircraft at your disposal when you want them. And there is absolutely no commitment and no expensive maintenance fees or acquisition costs. Time is money and BLUESTAR saves you both. It's the most affordable and flexible way to fly private. Not only is it what you deserve, it's what you should expect from your private jet partner.

The BLUESTAR JETS SKYCARD offers five levels of unprecedented convenience and flexibility to match any need. Each SKYCARD level:

- optimizes your budget with first access to inventory of one-way and empty leg flights
- allows privileges to be extended to in your travel party or company
- provides your own personal travel consultant to assist with all of your travel needs
- streamlines paperwork with one page-one signature trip sign off

More importantly, every benefit of the BLUESTAR JETS SKYCARD is attainable with:

- no membership fees
- no aircraft acquisition fees
- no monthly aircraft management fees
- no long-term contractual commitments

FLY LIKE YOU OWN IT, PAY LIKE YOU DON'T.

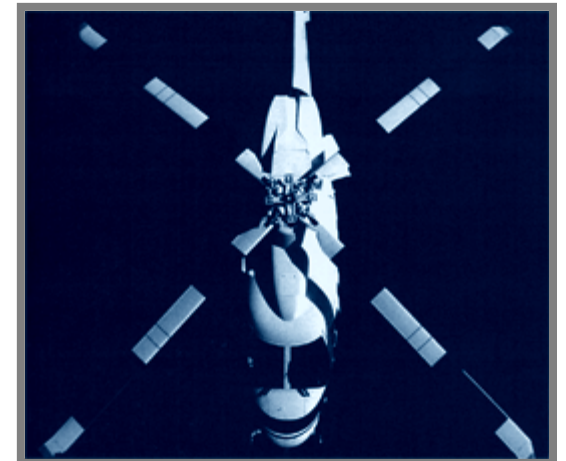

TURBO PROPS

The lightest aircraft combines the use of twin propellers and a turbine engine to fly. With a conservative use of fuel, the turbo prop is the most cost efficient aircraft for short-service flights. Ideal for short to mid-range flights. Capacity to hold 6-8 passengers, average cruising speeds of 280-315 mph and non stop range of just over 1,000 miles. In addition, we have access to turbo prop airlines which hold 12-29 passengers.

HELICOPTERS

Quick on and off the ground and agile in the air, helicopters are a versatile air travel option that allows ultimate accessibility. Capacity to hold 4-6 passengers, average cruising speed of 150-194 mph and average nonstop range of 450-591 miles.

LIGHT JETS

A sleek entrance into the jet class, light jets feature pressurized cabins and can fly at higher altitudes than their prop counterparts. A smooth ride, with the luxury of a quiet engine. Most economical choice for short to mid-range trips. Capacity to hold 5-8 passengers, average cruising speed of 400-560 mph and average nonstop range of 1,500 miles.

MEDIUM JETS

The most versatile of the fleet. With the comfort of the larger aircrafts and agility of smaller models, the medium jet offers a best-in-class experience. Capacity to hold 7-9 passengers, average cruising speed of 510-590 mph and average nonstop range of 2,100 miles.

SUPER MEDIUM JETS

A masterful aircraft for executive travel, specifically for long-range flights. A step up from the mid-size allows more space and fuel capacity. Capacity to hold 8-10 passengers, average cruising speed of 490-590 mph and average nonstop range of 3,400-3,600 miles.

HEAVY JETS

With impressive cruising speed and cabin space, heavy jets embody optimum performance. The largest size aircraft that doesn't require a major airport runway, while still covering long distances. Capacity to hold 9-15 passengers, average cruising speed of 500-560 mph and average nonstop range of 4,000 miles. In addition we have access to Boeing Business Jets which hold 15-23 passengers.

JUMBO JETS

More commonly known as a commercial airliner, this aircraft, available through BLUESTAR JETS, is anything but. Traveling at higher speed with greater range, the jumbo jet can fly the globe delivering any entourage any distance. Whether it's a sports team or a rock tour, this member of the fleet can be configured for executive, coach or even private travel with bedrooms and any other amenity you can think of.
